

Dear HR Recruiter Amalan

Assalamu'alaikum, let me introduce my self, my name is Firdauz Tri Anggoro, I am freshgraduate in electrical engineering at Seodirman university and I interested to apply position for Data Engineer. I have some basic knowledge on Data Engineer like Machine Learning, Database, Web Scrapping. In my last project or thesis, I implement Machine Learning with title of my thesis is "Detection Concrete Crack using Convolutional Neural Network Android-Based". I like work in a team because with that any problem can be solved with some discussion and it will make good relationship for each other. I have attached my Curriculum Vitae as your consideration. And for the last please forgive me about my English if it is bad.

Thank you for your consideration.

Wassalamu'alaikum
